

Parking Spaces

SS1

How to play Parking Spaces:

Give each student their own gameboard. They can park the cars in any order they want to. For students who finish quickly, have the partner try parking the cars (I often coach partners to make “mistakes” so that kids can correct them, this helps kids continue to pay attention.

Start with the keyboard side as soon as all critters are learned, once you’ve taught all the staff notes, flip the gameboard over and play the staff side.

Cards Included:

1) Letter Cars (SS1)

The included cars can be used on either side of the gameboard. Laminate after printing, and if you have access to a corner rounder, round the corners for less damage as the kids use them year after year!
