Note(s) from teacher:

Flashcards! You are adding new cards every week, and it can be easy to think your child has all the notes under control, but they don't actually have them all secure! Right now you have **11 cards!** Make sure you try them three ways at home;

- 1) Name each card
- 2) Play each card on the piano
- 3) Put each note on the tinsheet after reading it
