Toolbox 								

Practice tips for partners: You will notice marked strengths and weaknesses in students in your class. One of the benefits of small group study is to see the range of expression in musical skill. The average sight-reader may be a find composer. Acknowledge the strengths of fellow classmates. Promoting competition does not serve the learning process. Heartfelt recognition of another student's achievements teaches cooperation and teamwork. Celebrate the achievements of other students in the class as well as your own.
