

Use This Page As A Game Board

Roll a die. Name the note on which you land and then check it off. If you land on a * move this note up/down an octave on your tin sheet. Move around the board clockwise until you have named all the notes.

The game board is a grid of 24 musical staves arranged in a clockwise path. The path starts at a box labeled "Start" and ends at a box labeled "Roll Again!". The staves alternate between Treble and Bass clefs. Some staves have a note with an asterisk (*). In the center of the board is a die with musical notes on its faces.
