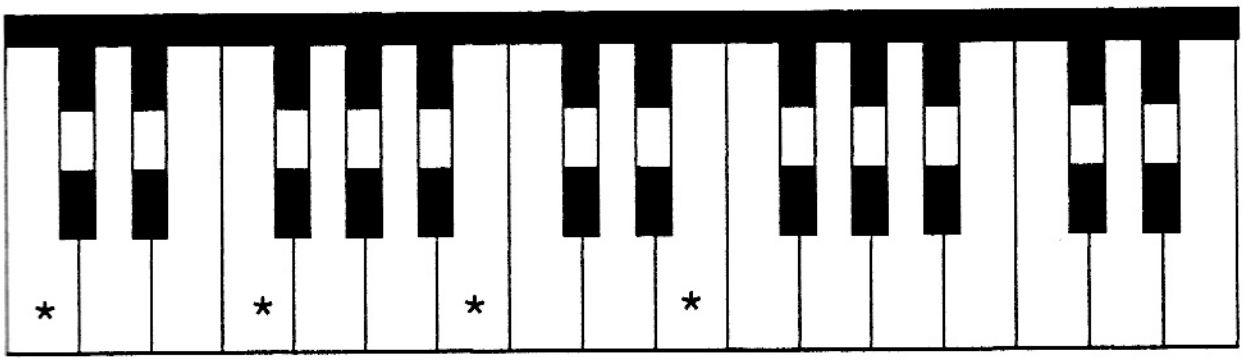
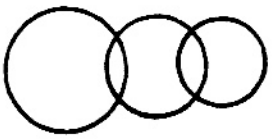
D♯ E♭ G♯ A♭ C♯ D♭ F♯ G♭ A♯ B♭

Give two (2) names to each key marked. any order for the pairs

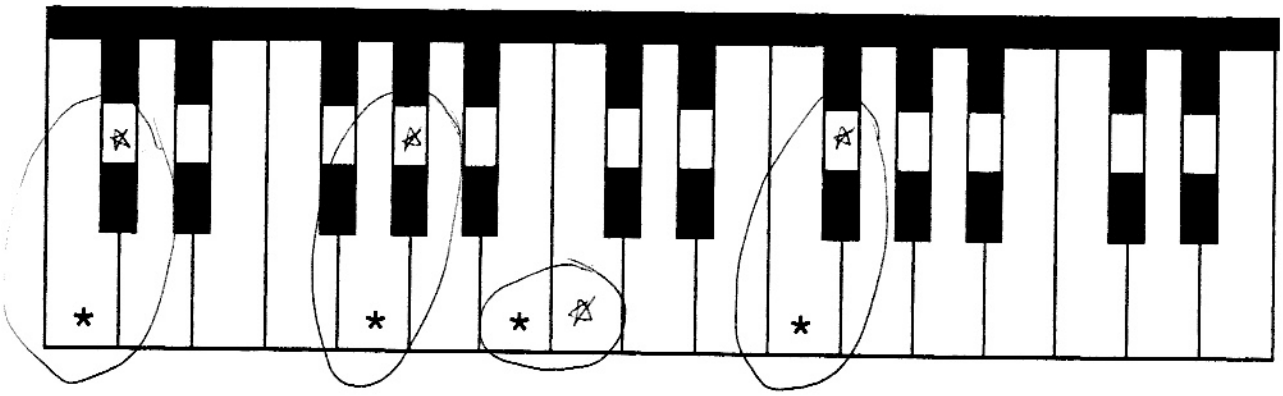


B♯ C♭ E♯ F B C♭ E F♭

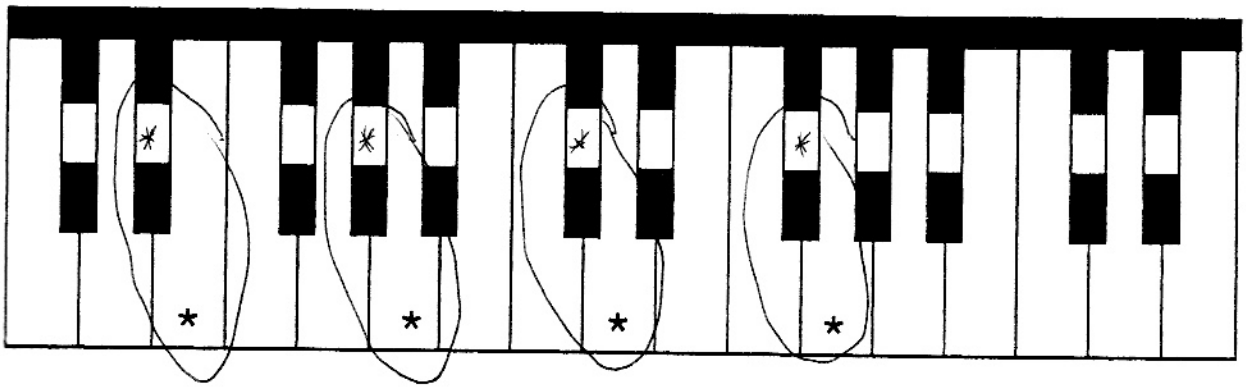
Connect With A Circle



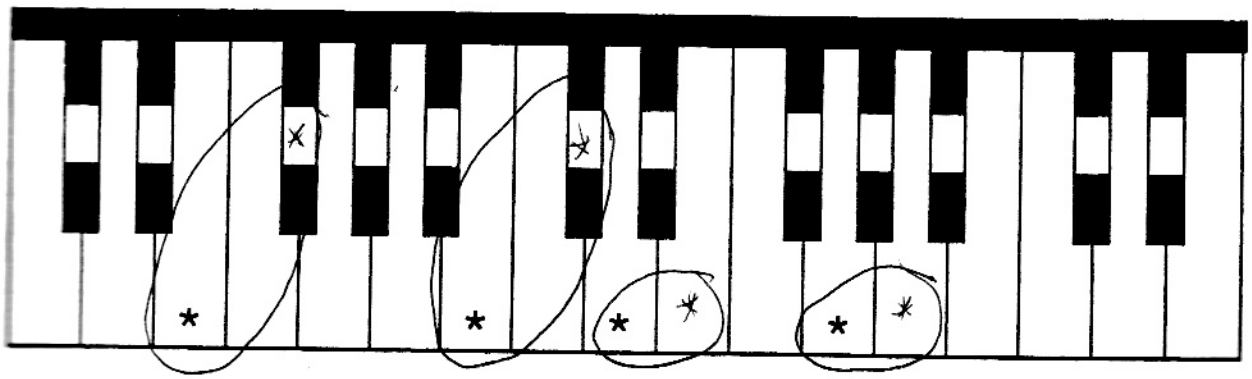
Find the semitone/half step <u>above</u> each key with a star. Connect them with a circle.



Find the semitone/half step <u>below</u> each key with a star. Connect them with a circle.



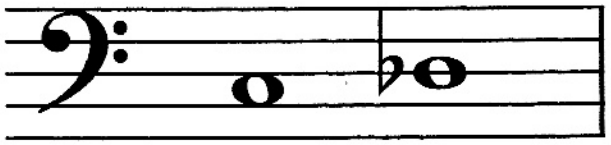
Find the whole tone/whole step <u>above</u> each key with a star. Connect them with a circle.



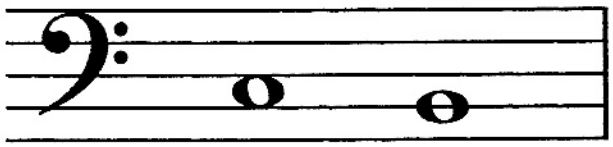
How Close Can We Get?

On the piano keyboard the distance from one note to the next closest note is called a semitone/half step.

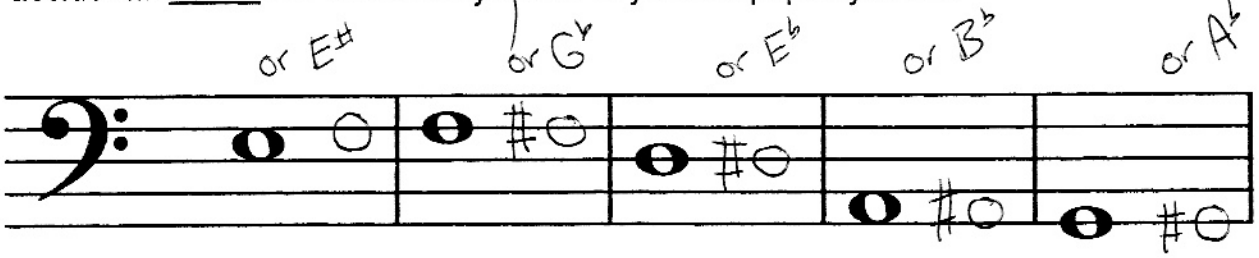
This is a semitone/half step above.....



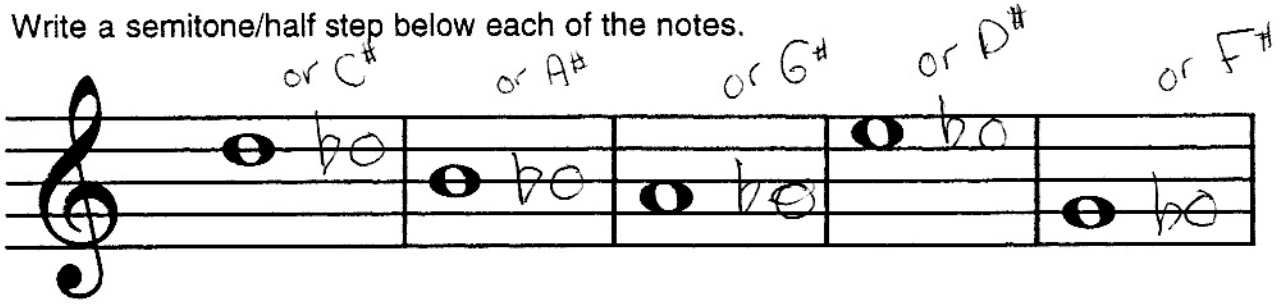
This is a semitone/half step below.....



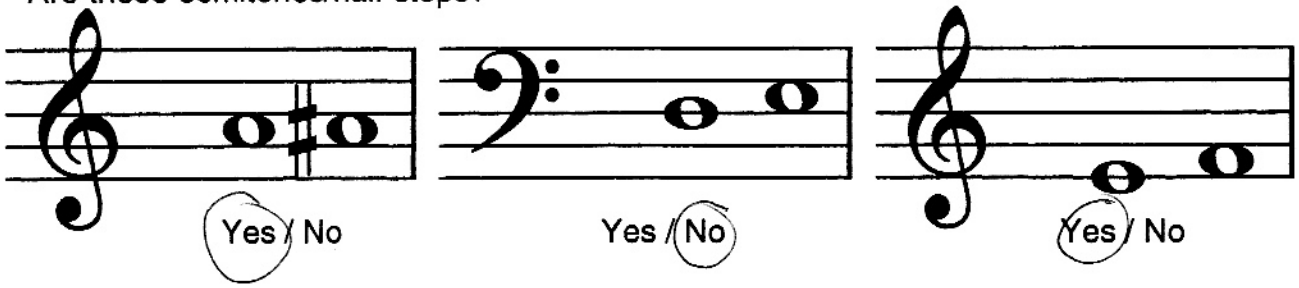
Write a semitone/half step above each of the following notes. Write the accidental before the note. Always refer to your lollipop keyboard.



Write a semitone/half step below each of the notes.



Are these semitones/half steps?



Yes / No

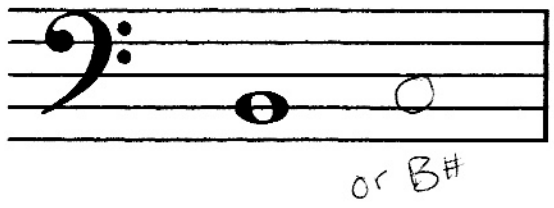
Yes / No

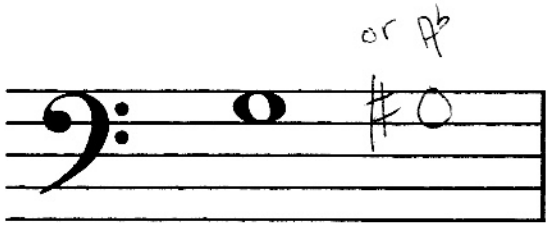
Yes / No

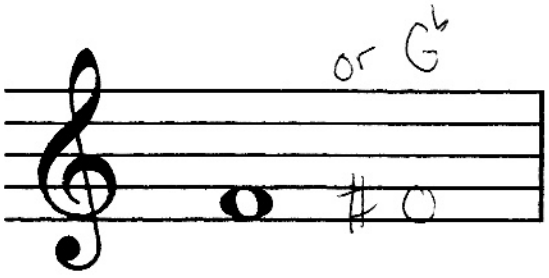
Semitone/Half Step Above Or Below

Remember: ♯ ♭ or ♮ may be needed before the note you add.

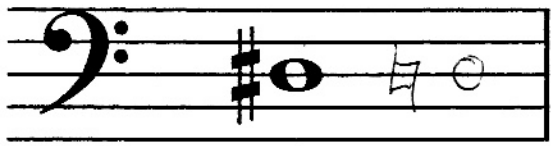
Draw a note a semitone/half step above each of these notes.

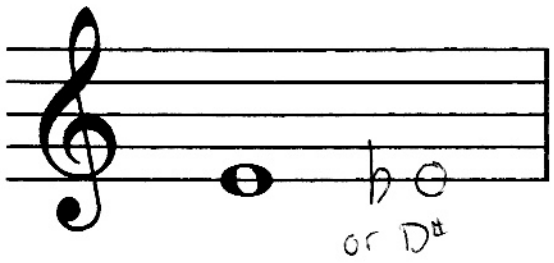


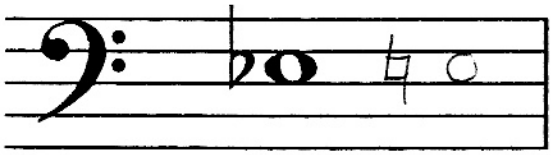




Draw a note a semitone/half step below each of these notes.







Draw your lollipop keyboard here.
