	H-25: **ANDANTE**: slow walking pace							
	MODERATO: Medium speed							
Toolbox 	'O' Fingers							

Practice Tips for Partners: As a child's awareness of others grows, you may see a vulnerable side to your child that wasn't evident earlier. A tear or a moment of reflection may let you know that your child is maturing. While your child still needs you, the demonstration of that need is not as obvious as it was in the past. Be alert to emotional growth at this age. Music can express emotion. Emotion is a part of musicianship

November Notes:
- Name notes on flashcards
-Put notes on tinsheet
-Play notes on piano
